

Water Main Flushing

OCWA will be flushing portions of the water distribution system in the Town of Geddes and Village of Solvay area beginning May 1st, 2019. The purpose of flushing is to improve water quality, water pressure and fire flows for our customers. Flushing activities will be conducted Sunday through Thursday evenings between 11 pm and 7 am. The program will continue throughout the summer and early fall. Should you experience any discoloration or sediment in your water, run your **COLD** water tap for 5 to 10 minutes until the water clears.

Please visit our website at www.ocwa.org for more information on our Flushing Program.

If you have any questions, please call OCWA at 315-455-7061 ext. 3157. Thank you.
